Re: SB 829 - SUPPORT

Dear Assembly Member Desaulnier:

Thank you for authoring Senate Bill 829 which will make the Occupational Safety and Health Appeals Board (OSHAB) process more fair and also in harmony with the laws and California court decisions that protect worker health and safety.

For many years the OSHAB has ruled in ways that do not ensure safe and healthy workplaces. It developed procedures and interpreted the law in ways that were biased against workers and also has been unfair in many ways to employers, the Division, and to employees who wish to participate in the appeals process.

We need for the OSHAB to be part of the overall program that supports health and safety for all California workers. I support SB 829 because it will make the necessary changes to assure that the OSHAB follows the spirit and letter of the law. Thank you for your commitment to worker health and safety.

Sincerely,
