Dear Bill Monning, CA State Senator

We hope you are well as you step into spring as our State Senator and ongoing advocate for health and wellness in our Central Coast communities. We would like to extend the Central Coast School Food Alliance's support for SB 193. This legislation will look to further strengthen workers whom face exposure to toxic chemicals and substances in the workplace.

Please let us know how can promote and encourage further support for this legislation.

Since regards,
